

Incident Collaborator™

Creating Visibility in a Crisis

Conferencing

Conferencing provides rapid communication capabilities across the entire incident organization or between individuals.

The screenshot shows a 'Conferencing' window with a chat area on the left and a 'Conference History' table on the right. The chat area shows a message from Siobhan Foran: 'We need to meet for a briefing ASAP.' The conference history table lists several messages with their timestamps, senders, receivers, and locations.

Message Time	Sender	Receiver	Location	Message
10/09/2008 11:45	IDSi International	All	Lobby	All units report back to the base.
10/09/2008 11:44	Alan Hoffman	All	Lobby	Please message me once located at the EOC.
